

DRIVER APP

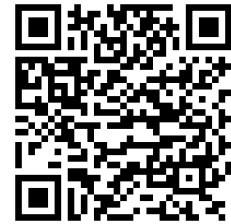

DOWNLOADING THE APP

Download app from Play Store by searching “TrackFleet ELD” or scan QR code.

TrackFleet ELD

LOGIN

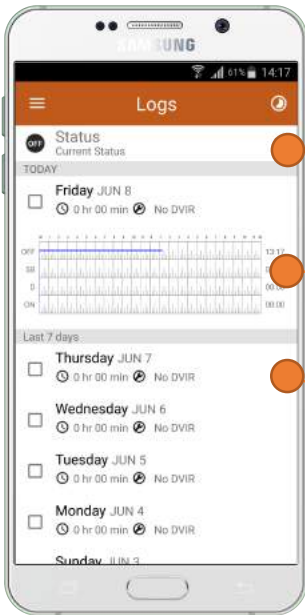

When APP is downloaded, and opened for the first time, Login window is displayed. User must enter given login credentials.

If entered data is incorrect, the program will show login screen and the warning message again.

If entered data is correct, user logs in to the system.

LOGS

Logs dashboard is the first screen to be displayed after successful log in.

Status

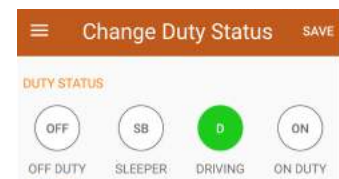

Tap to change status of the duty

Current logs

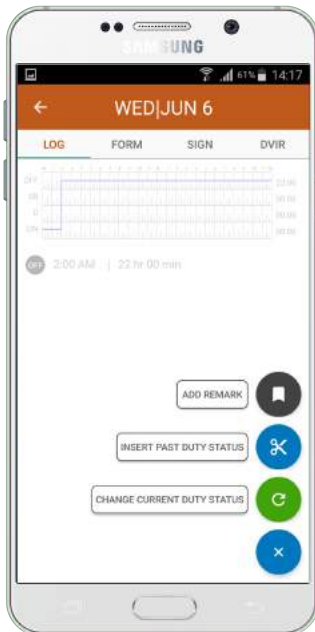

Tap to see the detailed info of today's logs

Logs of previous 7 days

Tap on the date to see the logs for that day

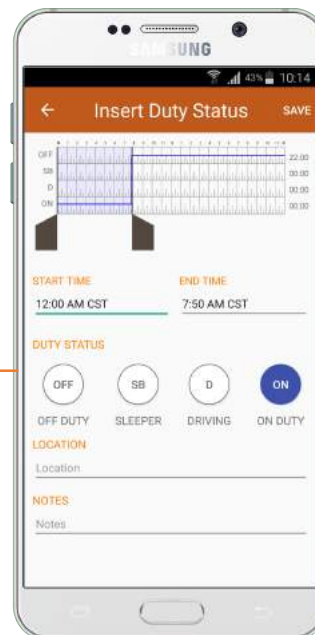

UPDATE PREVIOUS DUTY DETAILS

From logs dashboard tap on the graph or the date that you want to change:

Add Remark, Insert Past Duty Status or Change Current Duty Status

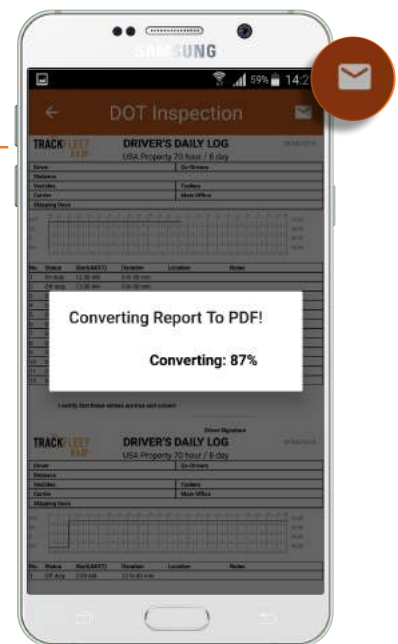

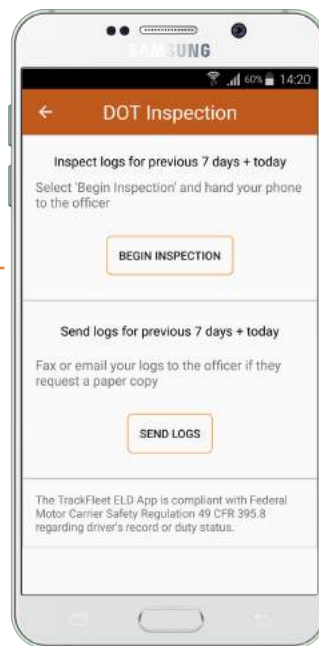

INSPECTION MODE

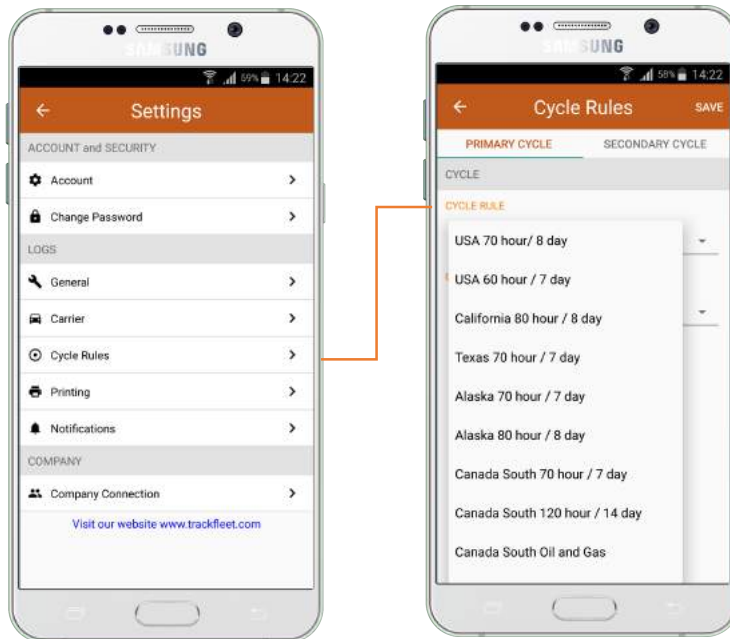

To show the logs to a Law Enforcement Officer user needs to choose DOT Inspection Mode From menu.

Tap on *Begin Inspection* for viewing all of the logs from past 7 days.

User can generate PDF of the report by tapping on mail icon on the right corner or send it to email.

GOING ON DUTY

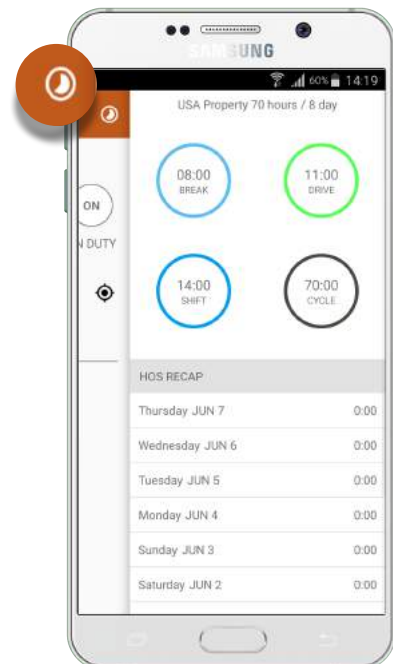

Before going On Duty user must define a Rule Set.

From Settings menu navigate to *Cycle rules*.

Choose a Rule set.
Save the rules.

To see the live updates of Hours of Service swipe screen from left to right or tap on the button.

DVIR (DRIVER VEHICLE INSPECTION RECORD)

On main screen tap on the date to open logs details page and navigate to *DVIR* page to record defects.

Navigate to *Vehicle* page to add or remove truck or trailer defects
